Memorandum

To: Superintendent, Laguna Agency, Bureau of Indian Affairs  
From: District Mining Supervisor, Albuquerque District  
Subject: Anaconda Copper Company's Jackpile-Paguate Mine, Pueblo of Laguna Uranium Leases 1, 4, and 8

As you know, Anaconda intends to cease all mining and mining related operations within the subject leases on or before March 31, 1982. Reclamation of the leases has not been completed nor has a reclamation plan been approved; therefore, Anaconda has not complied with the lease terms.

According to the provisions of 25 CFR 171 and 30 CFR 231, I recommend that you notify the lessee of this failure to comply and of the continuing obligations under the leases. I have enclosed a draft of this notification for your use.

If you have any questions, please contact me.
